

# Keeping children safe

## A guide to storing medicine safely

- ✓ Keep all your medication, illicit drugs and equipment **locked away, out of sight and out of reach** of children.
- ✓ Keep medication in bottles with a **child-resistant cap** where possible.
- ✓ Talk to your children about the dangers of all medicines.
- ✓ Rinse out the empty bottle before throwing it away.

If you think your child has taken **Methadone, Subutex** or any other drug, **call 999 immediately.**
